
ALBERTA RAISED BEEF

HIGHER QUALITY OF BEEF

ALL OUR BEEF IS HAND CUT, AGED A MINIMUM OF 28 DAYS & SELECTED FROM ALBERTA BEEF

From the moment they are born, Black Angus Cattle are strong & true with early maturity, fertility & stayablility. They are adaptable to all weather conditions; with winters that reach -30°C to summers of +30°C Canada's climate can be a harsh one, yet Angus thrive in all regions.

Black Angus Cattle are naturally polled, meaning no dehorning required—a highly heritable trait, along with high marbling & tenderness. These amazing cattle have the ability to grade high without compromising feed efficiency or adding animal growth or increasing yield grade—preserving meat cut quality.
